

As COVID-19 makes it harder to go change the world, GSofCT has an activity journal that can help you change the world from inside your home!

The March Like a Suffragist Travel Journal is full of activities that girls can do from the comfort of their own homes, and together as a troop online. It includes: researchable content online, activities to spark civic engagement at home, and much more that can be done in self isolation.

You can now purchase the journals and their patches and have them shipped to you house! We are offering free shipping now through April 22.

Journals and Patches can be found here:
