

Goldiblox Kit Reservation Form

- **Use this form to reserve Goldiblox Kits.** All kits are available on a first requested, first reserved basis. You will be notified if your choice is not available and when it will become available.
- **No Walk-ins. Reservations may be made by phone, followed by a mailed, faxed or emailed copy of this form.** Delivery will be made to nearest Service Center for pick-up (many materials are too heavy to mail). Kits must be reserved and paid for at least two (2) weeks in advance of pick-up date.
- Include time to review the kit before meeting with the girls. Goldiblox kits may be kept for up to 6 weeks from request date.
- Pre- and post-survey included in the kits must be administered to each participant and the completed forms returned with the kit. These will help us determine girls' interest in STEM and may inform future grant funding and other STEM programming and kit availability.
- Materials are designed to be worked on in pairs. For example, if you have 12 girls, you will receive 6 packets of materials with all the needed instruction, information and materials. We can accommodate up to 60 girls at any one time for each level.

Which Goldiblox Kit would you like to reserve?

Please circle all that apply.
