

Adult Leadership Training Progression

*Reminder: At least one adult who is CPR/First Aid certified must be present when leaving your meeting space.

For the safety and well-being of our girls, GSOFCCT requires that Co-Leaders and other Volunteers be certified for specific roles they take on in their troop. This progression shows the foundation of training, but not every Volunteer will need to complete all steps listed. Check with your Member Experience Specialist to determine what your correct path will be.
